We'd love to hear more details about the work your collaborative is doing. Engaging people with lived and living experience (PWLLE) of substance use is critical to ensuring opioid settlement funds are used effectively, equitably, and in ways that reflect the realities of those most affected by the crisis. By asking about how PWLLE are involved in decision-making, we aim to better understand how communities are centering the voices of those with direct experience. This information helps highlight strong models of inclusive governance, identify areas for improvement, and promote transparency in how decisions are made. It also ensures that spending decisions are informed by those who know firsthand what supports make a difference. Open-Ended Items Thank you for completing the expenditure portion of the report. We'd love to hear more details about the work your municipality is doing. Engaging people with lived and living experience (PWLLE) of substance use is critical to ensuring opioid settlement funds are used effectively, equitably, and in ways that reflect the realities of those most affected by the crisis. By asking about how PWLLE are involved in decision-making, we aim to better understand how communities are centering the voices of those with direct experience. This information helps highlight strong models of inclusive governance, identify areas for improvement, and promote transparency in how decisions are made. It also ensures that spending decisions are informed by those who know firsthand what supports make a difference. Please choose the statement most appropriate for how PWLLE were involved in decision-making around opioid settlement funded projects and expenditures with your municipality. {pwlle_mult_v2} Please describe in detail how PWLLE were involved in your municipality's decision-making around opioid settlement funded projects and expenditures. {pwlle_text_v2}</td><td>descriptive</td></tr>
