

## OUR SERVICES

### RECOVERY COACHING

Recovery coaches support a person's unique pathway of recovery, offering their own as a model. They are stable in their recovery, have an active pathway and are involved in the recovery community. They offer hope, optimism, and encouragement.

### INDIVIDUAL THERAPY

Our masters-level and licensed therapists have the experience, compassion, and resources for those struggling with substance abuse. We work with you to create a treatment plan that fits your future goals and aspirations, and help you stay on track.

### REFERRALS TO TREATMENT

Individual outpatient treatment might be further down the road for you. We have connections and resources to help you receive placement at different detoxes, rehabs, inpatient, residential, IOP, and short and long term treatment centers locally and nationally.

### SUPPORT FOR FAMILIES & LOVED ONES

Addiction doesn't just affect the person using. It's a tornado, ripping through the lives of all those close to the user, leaving destruction in its path. We offer support groups, resources, guidance, and validation for those caught in the midst of someone else's addiction.

## WHO WE ARE

Chris' Corner is the outcome of our current Regional Substance Navigation Program, and our work with the Milford, Mendon, Hopedale, Upton, and Medway Police Departments. It is a collaborative effort supported by a Comprehensive Opioid Abuse Site-based Program grant from the Department of Justice – Bureau of Justice Assistance.

We aim to be deeply connected to the community by providing peers, individuals, families and the community at large, substance use, mental health, recovery and support services based on our founding principles of No Shame, No Judgment, Just Truth.

We will fulfill our vision by providing individualized substance use and mental health support and counseling through peer-support and trained personnel utilizing both internal and external resources. We will foster client-centered motivation thus cultivating a sense of accomplishment while creating community belonging. All of this will be provided in a safe, confidential, and comfortable environment.

Our leadership team and staff bring years of experience, not only supporting others through substance use challenges, but also facing our own struggles and coming out the other side. We offer recovery-oriented services, support, and resources designed to help individuals improve their health and wellness, live a self-directed life, and reach their full potential.
